

# Reflection Meridian Pot (small)

The Meridian Pots are a cohesive and flexible range of screw threaded pots suitable for powder, cream or gel formulations. The 'Reflection' element refers to the pot being paired with a recess cap with a mirror placed in. The mirror can be decorated with screen print designs or left undecorated to aid application. Available in a range of sizes with capacities ranging from 5ml to 40ml, the pots can be supplied with sifters (PP or PP/Mesh) or with paper sealing discs. The jars can be moulded in transparent (SAN or PMMA) materials, while the closures can be colour moulded, UV sprayed or vacuum metallised. The Meridian Pot range fits perfectly with HCP's Fusion products, or can be used to compliment an existing or stand alone range of customer products.

HCP Ref:

365 Base / 15D Recess Cap with Reflection
