

The Meridian Pots are a cohesive and flexible range of screw threaded pots suitable for powder, cream or gel formulations. Available in a range of sizes with capacities ranging from 5ml to 40ml (without sifters), the pots can be supplied with sifters (PP or PP/Mesh) and paper sealing discs. The jars can be moulded in transparent (SAN or PMMA) materials, while the closures can be colour moulded, UV sprayed or vacuum metallised. The Meridian Pot range fits perfectly with HCP's Fusion products, or can be used to compliment an existing or stand alone range of customer products.
