

Metal Primo Promo Lipstick (with ribbon/charm)

The Metal Primo Lipstick is a small size 50/50 style, cylindrical lipstick, with a fully functioning swivel mechanism. With a strong trend for mini make-up packaging, it is an ideal choice for limited edition collections. This version offers the opportunity to add a ribbon or charm - tapping into the trend for customisation and personalisation of make-up packaging. The modern, minimalist design of the allows the Metal Primo Lipstick to be incorporated as part of the HCP 'Fusion Round collection or as a complementary item to a customer's existing product line-up. The cup is designed to accommodate a 12.1mm or 12.7mm diameter bullet and the pack is designed for conventional (automatic or manual) top filling. The metal cover, base and A-Shell can be anodised in a range of colours and textures. There is a PP liner in the metal cap to provides a smooth cover fit.
